2011 State Fact Sheets

ABOUT NACCRRA

NACCRRA, the National Association of Child Care Resource & Referral Agencies, is our nation's leading voice for child care. We work with more than 600 state and local Child Care Resource and Referral agencies to ensure that families in every local community have access to quality, affordable child care. To achieve our mission, we lead projects that increase the quality and availability of child care, offer comprehensive training to child care professionals, undertake groundbreaking research and advocate for child care policies that positively impact the lives of children and families. To learn more about NACCRRA and how you can join us in ensuring access to quality child care for all families, visit www.naccrra.org.

ACKNOWLEDGEMENTS

NACCRRA wishes to thank the following individuals in CCR&R State Networks and State Agencies, whose efforts to provide data for their states supported this report. Without their annual assistance, this report would not be possible.

CHILD CARE IN AMERICA TODAY

INTRODUCTION

More than 11 million children under age 5 in the United States are in some type of child care arrangement every week¹. On average, the children of working mothers spend 35 hours a week in child care². About one-third of these children are in multiple child care arrangements so that parents can meet the need for child care during traditional and nontraditional working hours³.

The number of parents losing jobs, working part time, taking pay cuts, or working two or more jobs reflects a growing reality associated with the weak economy of the last few years. Parents are forced to make difficult decisions about the care of their children.

As this report shows, the average annual cost of full-time care can range from about \$4,650 in Mississippi to \$18,200 in the District of Columbia for an infant in center-based care and from about \$3,850 in Mississippi to \$12,100 in Massachusetts for an infant in a family child care home. It is not much better for the annual cost of care for a 4-year-old, which ranges from about \$3,900 in Mississippi to \$14,050 in the District of Columbia for center-based care and from about \$3,600 in Mississippi to \$11,300 in Massachusetts for care in a family child care home.

Anecdotal evidence from Child Care Resource and Referral agencies (CCR&Rs) across the country as well as newspaper stories throughout the states shows families are struggling to make ends meet. This financial insecurity leads some parents to decide to remove children from organized child care and make do with whatever arrangements they can find and/or afford. Unlike a mortgage or rent or a car payment, child care is an area where

parents seek to find savings – and keep their fingers crossed that all will go well.

Ironically, in a weakened economy, the stress placed on families makes quality child care settings even more important to the healthy development of children.

The quality of child care has a lasting impact. In May 2010, the National Institute of Child Health and Human Development (NICHD) released a report that found that high-quality child care leads to more positive outcomes even during the teenage years. Children who received high-quality care in the first few years of life scored higher in measures of academic and cognitive achievement when they were 15 years old and were less likely to misbehave than those who were enrolled in lower quality child care. Even 10 years after children left child care, experiences in quality settings were still related to higher academic achievement⁴.

It is essential for America's future economic prosperity that our children receive quality, developmentally appropriate care. However, as working families struggle with the costs of child care, they also find that the availability of the quality of care varies greatly.

NACCRRRA and individual state and local CCR&Rs support parents as they make tough decisions about child care. CCR&Rs work within every state to help ensure that families have access to affordable, quality child care. CCR&Rs are uniquely positioned within communities to not

only work with parents, but also with child care providers and state and local governments to strengthen the quality of care.

In the United States, about 90 percent of the cost of child care is assumed by parents. This is supplemented by more than \$10 billion in government money that is spent annually by the states for child care. For the most part, funding for child care comes from the Child Care and Development Block Grant (CCDBG), the Temporary Assistance for Needy Families (TANF) program, the Social Services Block Grant (SSBG or Title XX) and state funds.

Since the nature of these funds is a block grant, states have wide discretion about how to spend this money. CCDBG is the primary source of federal funds for child care, but requirements in the law are subject to broad interpretation. As a result, each state crafts its own standards and oversight policies.

Over the past five years, NACCRRRA has reviewed and scored state licensing regulations for child care centers and small family child care homes. The 2011 report about state laws and policies for child care centers found that states earned, on average, only 58 percent of all available points⁵. The 2010 report about state laws and policies for small family child care homes shows that state requirements for this kind of care were even more minimal. On average, states earned only 45 percent of all available points.⁶

⁵ National Association of Child Care Resource & Referral Agencies (NACCRRRA). (2011). *We can do better: NACCRRRA's ranking of state child care center regulations and oversight: 2011 update*. <http://www.naccrra.org/publications/naccrra-publications/we-can-do-better-2011>

⁶ NACCRRRA. (2010). *Leaving children to chance: NACCRRRA's ranking of state standards and oversight of small family child care homes: 2010 update*. <http://www.naccrra.org/publications/naccrra-publications/leaving-children-to-chance-2010.php>

Our conclusion after five years of studying child care regulations and oversight is that we still cannot say with confidence that America's children are protected by state licensing regulations and oversight systems. Nor can we say that child care policies are in place to help young children learn and be ready for school.

This document provides information about key indicators that describe child care nationally and in individual states. The report is divided into two sections. The data in the first section documents the need for and use of child care in the United States. It includes information about the current cost, quality and impact of child care on America's children, families and the economy. It also provides key data from the nation's CCR&R system about services provided by CCR&Rs and the impact of CCR&Rs on parents and child care providers.

In the second section, the individual state child care fact sheets provide information about the number of children in the state and the number of families earning low incomes; the number of children younger than age 6 with parents in the labor force; the number of women in the labor force; average child care costs and median family incomes; child care subsidy participation numbers; child care supply; child care demand; child care workforce numbers, training and technical assistance numbers; and the number of CCR&R agencies.

Data were gathered from federal and national sources and from State CCR&R Networks and other CCR&Rs surveyed in early 2011. In some states, mid-year transitions in statewide contracting of CCR&R services caused difficulty in reporting 2010 training and referral data. In several states, cost data are only available every two years from the state market rate survey. In three states (Alabama, Delaware, and Wisconsin), no 2010 data were reported by the CCR&Rs. Child care capacity was provided by the state child care administrator's office in these states.

In every state, child care can be hard to find, difficult to afford and is likely to be of mediocre quality. State licensing standards vary greatly, with few states meeting the most basic standards to ensure that children are safe and learning while in child care.

Child Care in America: 2011 State Fact Sheets is useful to program administrators, policymakers

and child care advocates as they make decisions about child care programs and expenditures. It provides the data to better understand America's working families and the circumstances families face as they balance working to support their families with providing their children with child care that is safe, healthy and promotes early learning.

CHILD CARE IN AMERICA TODAY: FACTS

Family Characteristics and Need for Child Care	
Number of children under age 6 in the United States ¹	23,792,458
Percentage of children under age 6 living with both parents ²	68%
Percentage of children under age 6 living with both parents, where both parents work ³	56% (8,971,157 children)
Number of children under age 6 living with a single parent ⁴	7,713,736
Percentage of children under age 6 living with a single, working parent ⁵	76% (5,856,354 children)
Number of children under age 6 requiring child care, as parent works ⁶	14,827,511
Percentage of mothers with children under age 6 who are in the workforce ⁷	68%
Number of women in the labor force who gave birth in last 12 months ⁸	2,502,858
Percentage of mothers with children under age 1 who are in the workforce ⁹	59%
Percentage of children under age 5 with working mothers (not self-employed), who work non-day shifts ¹⁰	32% (3.6 million children)
Percentage of children under age 5 with working mothers who are in multiple child care arrangements ¹¹	25% (2.8 million children)
Percentage of all mothers returning to work within the first six months of giving birth ¹²	55%
Percentage of all mothers returning to work within the first year of giving birth ¹³	64%
Percentage of child care referral requests for infant/toddler care ¹⁴	40%
Percentage of child care referral requests for preschool-age care ¹⁵	35%
Percentage of child care referral requests for school-age care ¹⁶	25%

Child Care Patterns and Supply

Number of children under age 5 of working mothers who are in some type of child care while their mother works. ¹⁷	11.3 million
Percentage of school-age children between ages 5 to 14 with working mothers who have no regular child care arrangement every week ¹⁸	37% (9.6 million children)
Percentage of school-age children between ages 5 and 14 with working mothers who are home alone after school (“self care”) ¹⁹	19% (4.2 million children)
Percentage of children under age 5 of employed mothers in child care arrangements by primary caregiver ²⁰	
Grandparent	19%
Child care centers	18%
Family child care homes	7%
Other relative	6%
Nursery/preschool	5%
Other nonrelative	5%
Nonrelative in child’s home	4%
Percentage of children under 5 of employed mothers in <u>multiple</u> child care arrangements by primary caregiver ²¹	
Grandparent	30%
Child care centers	21%
Family child care homes	9%
Nursery/preschool	7%
Other nonrelative	7%
Nonrelative in child’s home	5%
Number of hours per week, on average, preschool-age children of working mothers spend in child care or nonparental care ²²	35 hours
Number of child care centers ²³	119,550
Number of family child care homes ²⁴	231,705
Percent of accredited child care centers ²⁵	10.4%
Percent of accredited family child care homes ²⁶	0.88%

Cost of Child Care

Range, average annual fees for full-time care for an infant in a center ²⁷	~\$4,650 – \$18,200
Range, average annual fees for full-time care for a 4-year-old child in a center ²⁸	~\$3,900 – \$14,050
Range, average annual fees for full-time care for an infant in a family child care (FCC) home ²⁹	~\$3,850 – \$12,100
Range, average annual fees for full-time care for a 4-year-old child in a FCC home ³⁰	~\$3,600 – \$11,300
Range, average annual fees for before- after-school care for a school-age child in a center ³¹	~\$2,450 – \$10,400
Range, average annual fees for before- and after-school care for a school-age child in a FCC home ³²	~\$2,300 – \$9,350
Average yearly tuition and fees of public higher education ³³	~\$7,600

Child Care Workforce

Number of individuals who earn a living caring for children under age 5 ³⁴	2,330,000
Number of child care center workers ³⁵	611,280
Number of child care workers in family child care homes ³⁶	650,000
Number of child care workers who are paid relatives of the child ³⁷	804,000
Number of child care workers who are paid nonrelatives, but unregulated ³⁸	298,000
Average earnings of child care workers ³⁹	\$10.15 per hour (\$21,110 annually)
Average earnings of preschool teachers ⁴⁰	\$14.04 per hour (\$29,200 annually)
Percentage of child caregivers in centers and FCC homes who are women ⁴¹	97% in centers 99% in FCC
Percentage of center teachers with only a high school diploma or less ⁴²	20%
Number of states that require a high school diploma or less for lead teachers ⁴³	32
Percent of family child care providers with a high school diploma or less ⁴⁴	44%
Number of states where teachers in child care centers are required to undergo a comprehensive background check (State and federal fingerprint checks, and a check of both the sex offender and child abuse registries) before working in a classroom ⁴⁵	10
Number of states where providers in family child care homes do not need any training before being licensed as small family child care home providers ⁴⁶	14

Child Care Resource and Referral (CCR&R) Information⁴⁷

CCR&Rs Around the United States

Number of local and state CCR&Rs in the United States	Over 600
Number of states with CCR&R services	All 50 states plus the District of Columbia
Percentage of populated ZIP codes served by CCR&Rs	99.33%

Services Provided by CCR&Rs

Percentage of local CCR&Rs coordinated by a statewide network	78%
Percentage of CCR&Rs conducting community needs assessments	88%
Percentage of CCR&Rs involved in market rate surveys	75%
Percentage of CCR&Rs providing training and technical assistance	97%
Percentage of CCR&Rs providing consumer and parent education	97%
Percentage of CCR&Rs recruiting providers	88%

CCR&R Impact

Number of parents served annually by CCR&Rs with child care referrals, consumer education, training workshops, subsidy administration and other services ⁴⁸	7 million
Number of contacts with parents annually by CCR&Rs to provide services ⁴⁹	10 million
Number of consumer education materials on child care distributed ⁵⁰	11 million
Number of child care providers trained annually by CCR&Rs ⁵¹	650,000
Number of child care programs receiving on-site technical assistance from CCR&Rs annually ⁵²	65,500
Number of new child care spaces created annually by CCR&R agencies ⁵³	450,000

2011 STATE FACT SHEETS

How many children and families are there?¹	Alabama	United States
Total residents	4,633,360	301,461,533
Children age birth–4 years	307,795	20,860,344
Children age birth–4 years in poverty	84,589	4,416,482
Children age 5–11	427,995	27,914,577
Total families	539,926	34,883,550
Single-parent families	188,162	10,779,688
Families in poverty	123,239	5,802,201

How many children under age 6 potentially need child care?	Alabama	United States
Children in two-parent families, both parents in labor force	121,889	8,971,157
Children in single-parent families, parent in labor force	99,319	5,856,354
Total children under age 6 potentially needing child care	221,208	14,827,511

How many working mothers are there?	Alabama	United States
With infants	38,996	2,502,858
With children under age 6	85,057	5,439,259
With children under 18		
Married working mothers	220,096	15,149,864
Single working mothers	120,930	6,713,060

How many centers/family child care homes are available?²	Alabama	United States
Number of centers	1,952	119,550
Percent of centers that are nationally accredited	4%	10%
Family child care (FCC) homes	1,207	231,705
Percent of FCC that are nationally accredited	2%	1%
Total spaces/slots	NR	11,551,742
Percent of spaces in centers	NR	82%
Percent of spaces in FCC	NR	19%

What kind of child care is requested?²	Alabama	United States
Percent of requests for referrals received by CCR&Rs		
For infant/toddler care	NR	40%
For preschool-age care	NR	34%
For school-age care	NR	25%
For full-time care	NR	84%
For part-time care	NR	17%
For before/after-school care	NR	6%
For nontraditional hours care	NR	10%

¹ Unless otherwise noted, statistics in these sections are from the American Community Survey conducted by the U.S. Census Bureau (www.census.gov), 2005-2009 5-year estimates.

² Data are provided by the State CCR&R Network and are derived from CCR&R data. Capacity for Alabama, Delaware, Texas and Wisconsin was provided by state licensing offices. Percentages of slots by facility type may not total to 100 percent due to varying state definitions of provider types.

NR: Not Reported

How expensive is child care?³	Alabama	United States
Average annual fees for full-time care		
In a center		
Infant	\$5,350	\$4,650 – \$18,200
4-year-old child	\$5,650	\$3,900– \$14,050
Before/after-school for school-age child	\$5,050	\$2,450 – \$10,400
In a family child care home		
Infant	\$4,650	\$3,850– \$12,100
4-year-old child	\$4,750	\$3,600 – \$11,300
Before/after-school for school-age child	\$5,500	\$2,300 – \$9,350
Compared with:		
Annual tuition and fees for public four-year college ⁴	\$7,374	\$7,605
Affordability (cost of child care as percent of median annual family income):		
Infant in center, percent of income for MARRIED COUPLES	8%	7% to 16%
Infant in center, percent of income for SINGLE MOTHERS	29%	25% to 69%
Who gets help with paying for child care?	Alabama	United States
Child Care and Development Fund (Monthly Average) ⁵		
Families	14,000	304,059,724
Children	26,800	21,005,852
Participating providers	2,900	4,279,045
What are the numbers, income and support of the child care workforce?	Alabama	United States
Child care workers (in centers) ⁶	11,170	611,280
Average annual income ⁶	\$18,070	\$21,110
